

DEMO GUIDE

Getting Started with Your App

A step-by-step guide from your first login to your first export.

3 steps · 1 section

Beginner friendly

Every screenshot in this guide is real — taken from an actual demo session.

Before you start

Make sure you have an account and a project ready. The whole flow takes about 5 minutes.

Contents

1 Your First Steps

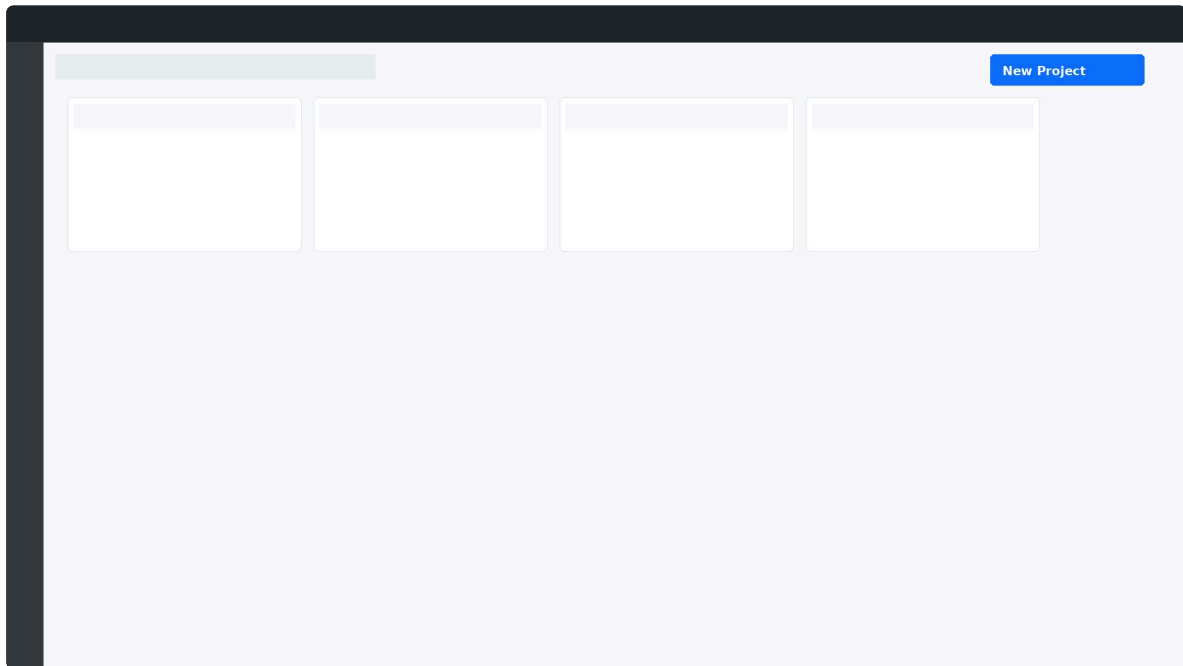

3 steps

1 Your First Steps

Three clicks to your first export.

1 Open the dashboard

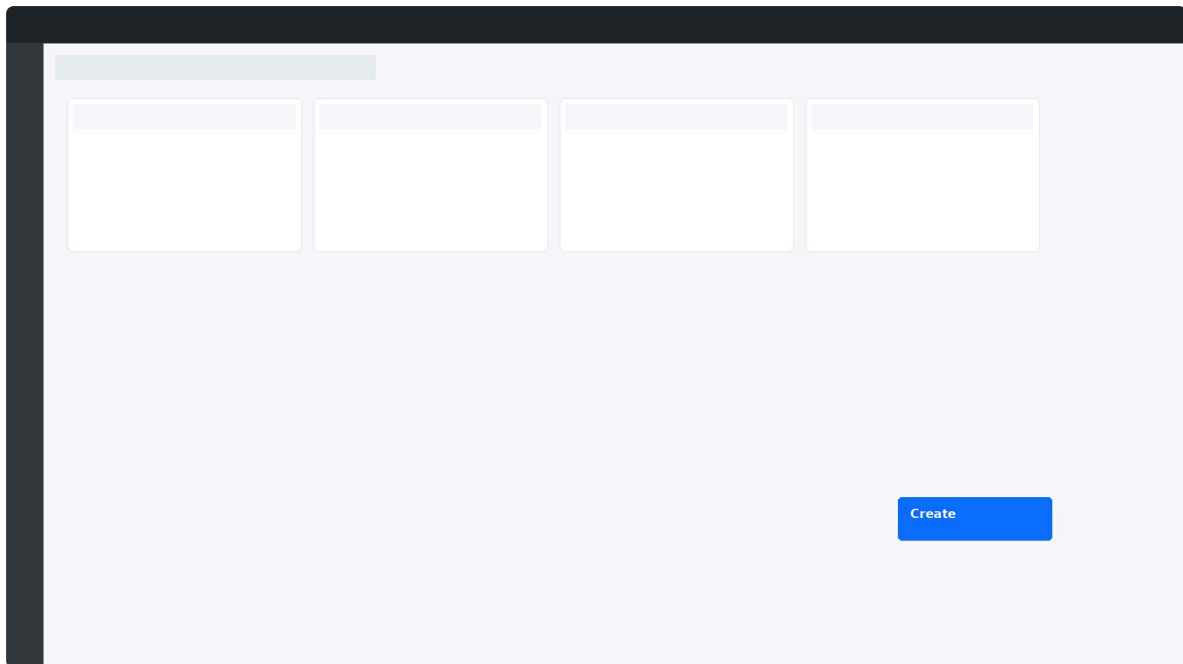

After login, you'll see the main dashboard. Click **New Project** in the top-right.

1 New Project button

2 Configure your project

Give your project a name and select a template. Then click **Create**.

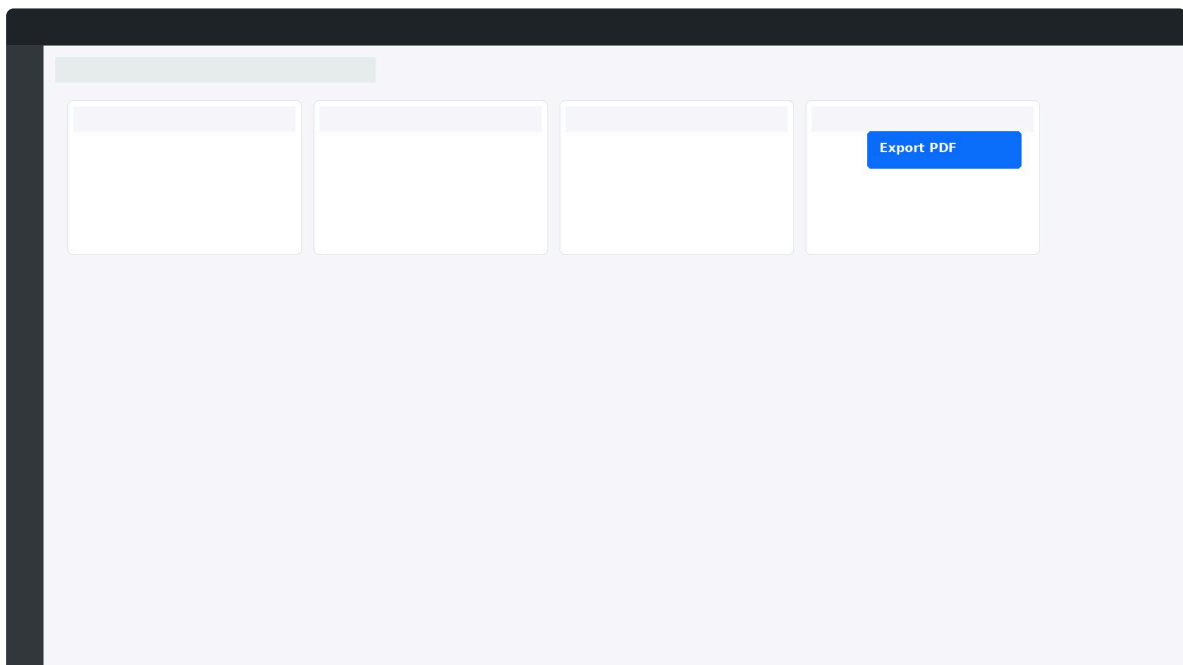

1 Project name field

2 **Create** button

3 Export your work

When you're done, click **Export** and choose PDF format.

1 **Export** menu

2 PDF format option

Quick Reference

Keyboard Shortcuts

- | | | | |
|---|----------------------|---|-----------------|
| 1 | Ctrl+N — New project | 2 | Ctrl+E — Export |
| 3 | Ctrl+S — Save | 4 | Ctrl+Z — Undo |

That's it — you're ready to go.
